

An artistic illustration of a girl with long red hair, wearing a grey dress and orange shoes, running on a grassy hill towards a vast, dreamy sky. She is reaching up with her right hand towards a cluster of white squares that are floating in the air. The sky is filled with soft, white clouds and a bright blue gradient. The overall mood is hopeful and aspirational.

Method

□ Story Grammars

□ the most intuitive;

□ similar to language grammars covered in the Compilers curricular unit;

□ the most personalised;

□ allows filling with data generated by third parties.

Process

- ❑ Use of class to support story generation from grammars;
- ❑ Make of base grammar;
- ❑ Use of ChatGPT to add data to each rule.

```
# base rule

Generated story

- ❑ In the beginning, there was a young athlete male that retired to be a powerful computer.
- ❑ For that, they need to go to beach and find Chaos magician to help accomplish their goal.
- ❑ During the journey, they learn how to balance a spoon on their nose, which lead to Stone man syndrome.
- ❑ Abruptly, there was no one when they finally reach the destination - only a food.
- ❑ Feeling sad, they wanted chips to appease the pain.
- ❑ And when everything seemed to be lost, a voice was heard: it came from the only thing that was giving them some company. It seemed that it was the person they were looking for! He told he was bewitched for dancing in the rain.
- ❑ In the end, the protagonist woke up.

Interactive Fiction

Background

- ❑ Create an interactive story based on *Detroit: Become Human* (2018) and Alfred Hitchcock's *Vertigo* (2022);
- ❑ Build a single story that develops through exploration;
- ❑ Do something similar to the thesis game, but without visuals;

Method

❑ Parser Game

- ❑ use of commands close to natural language (intuitive);
- ❑ focus on solving puzzles; commands drive the story (pick the good one may unveil something);
- ❑ one story is made (more depth);
- ❑ lack of time;
- ❑ make something similar to Zork.

Overview

- ❑ The main character (Dave) takes part in an athletics competition and gets hurt during the race, being rescued by another boy (Loan). The two fall in love;
- ❑ Dave is diagnosed with traumatic ossifying myositis and is left with sequelae in one leg, so he retires from his life as a sportsman;
- ❑ They become a couple and decide to visit a magician to cure Dave's disability;
- ❑ The wizard offers to help, but he needs the Cloaking Stone;
- ❑ When they return to the wizard's house with the stone, the wizard is turned into chips;
- ❑ To break the spell, the wizard needs some of the stone's power, which means he can no longer cure David;
- ❑ The wizard turns Dave into a computer and creates an avatar for him to wake up to in this parallel world;
- ❑ Loan dies and someone turns off the laptop.
